Introducción

Tu beneficio de farmacia con Triple-S Salud usa una Lista de Medicamentos. La Lista de Medicamentos es una guía de los medicamentos seleccionados por el Comité de Farmacia y Terapéutica de Triple-S Salud, la cual representa los medicamentos vitales para un cuidado de alta calidad. Nuestro Comité de Farmacia y Terapéutica está formado por doctores, farmacéuticos clínicos y otros expertos de la salud, quienes se reúnen periódicamente para evaluar y escoger aquellos medicamentos que serán añadidos en esta Lista de Medicamentos. Esta selección se hace a base de la seguridad, efectividad y costo de los medicamentos.

La Lista de Medicamentos se divide en tres partes.

- La primera parte es un resumen que te ofrece información sobre la forma en que se diseñó la lista. También se incluye una descripción de los éditos de análisis de utilización para validar dosis e identificar terapias duplicadas. Estos éditos están a través del sistema de mc-21 corporation.
- La segunda parte tiene los medicamentos por clase terapéutica.
- La tercera parte contiene los apéndices y una lista por orden alfabético (índice) de los medicamentos de marca y genéricos en la lista.

Para más información de cómo obtener tus medicamentos, busca la Sección 5(f) de tu Guía del Programa FEHB.

Esta es una lista parcial e incluye sólo algunos medicamentos cubiertos por Triple-S Salud. Si deseas mayor información llama a nuestro Departamento de Servicio al Cliente al 787-774-6081 o visita nuestro portal en la Internet www.ssspr.com.

Parte I – Diseño y Manejo de la Lista de Medicamentos

Presentación de la Lista de Medicamentos

A continuación presentamos la información que ofrecemos para los medicamentos en la Lista.

Nombre Comercial	Presentación		Nombre del Medicamento	Nivel	Inst		
ANTI-INFECCIOSOS							
Quinolonas							
AVELOX	TABS	400 MG	Moxifloxacin Hcl*	1			
CIPRO	INJ	200 MG/20ML, 400MG/40ML	Ciprofloxacin Iv*	1			
	SUSP	250 MG/5ML (5%), 500MG/5ML (10%)	Ciprofloxacin*	1			
	TABS	250 MG, 500 MG, 750 MG	Ciprofloxacin Hcl*	1			
CIPRO XR	TABS 24H	1000 MG	Ciprofloxacin- Ciprofloxacin Hcl*	1	QL {14 Tabs, 30 days}		
		500 MG	Ciprofloxacin- Ciprofloxacin Hcl*	1	QL {3 Tabs, 30 days}		
FLOXIN	TABS	200 MG, 300 MG, 400 MG	Ofloxacin*	1			
LEVAQUIN	TABS	250 MG, 500 MG, 750 MG	Levofloxacin*	1			
NOROXIN	TABS	400 MG		3			

Para todos los medicamentos en la Lista de Medicamentos aparece el nombre comercial, su presentación, el nivel, nombre del medicamento y si tiene alguna instrucción especial.

Los medicamentos genéricos se encuentran escritos en letras **negrillas** en la Lista (como, Avelox). También podrás identificarlos ya que los mismos tienen un asterisco (*) en la columna del Nombre del Medicamento. Si un medicamento de marca no tiene genéricos, el espacio en la columna “nombre del Medicamento” aparecerá vacío (como, Noroxin).

¿Cómo puedo usar mi Lista de Medicamentos?

La forma más fácil en que puedes conseguir tus medicamentos en la Lista es buscando tu medicamento en el Índice que comienza en la página 106. El Índice provee una lista por orden alfabético de todos los medicamentos en este documento. Ambos, medicamentos de marca como genéricos, están en el Índice. Busca el Índice y encuentra tu medicamento. Al lado de tu medicamento, encontrarás el número de la página dónde sale la información de la cubierta. Voltea a la página en el Índice y encuentra el nombre del medicamento en la primera columna de la lista.

¿Cuánto voy a pagar por los medicamentos cubiertos?

Los medicamentos en la lista se clasifican por niveles, menos aquellos que tienen \$0 copago, si son prescritos o provistos por proveedores de la red de Triple-S Salud. Estos niveles identifican el costo compartido, o sea lo que pagas, por los medicamentos en la receta.

Estos niveles son los siguientes:

- Nivel 1 – Medicamentos Genéricos
- Nivel 2 – Medicamentos de Marca Preferidos
- Nivel 3 – Medicamentos de Marca No Preferidos
- Nivel 4 – Medicamentos Especializados o Biotecnológicos Preferidos
- Nivel 5 - Medicamentos Especializados o Biotecnológicos No Preferidos

Debes verificar en la Guía de Beneficios (Sección 5(f)) cuánto es el copago o coaseguro que pagarás por el medicamento, dependiendo del nivel en que se encuentra. No pagarás nada (\$0) por los siguientes medicamentos si son recetados o suministrados por proveedores de la red de Triple-S Salud:

- Anticonceptivos aprobados por la FDA (OTC y con receta médica¹)
- Fluoruro (hasta los 6 años)
- Aspirina (con límite de una 1 tableta/ diaria; desde los 18 años)
- Hierro (hasta los 12 meses)
- Ácido fólico (sólo para mujeres)
- Evista y Nolvadex (para prevenir cáncer de seno)
- Medicamentos para dejar de fumar aprobados por la FDA (se cubre el despacho de medicamentos por 90 días seguidos en un intento y hasta dos intentos por año)

Tu cubierta de farmacia te ofrece algunos medicamentos OTC con \$0.00 copago si son prescritos y provistos por proveedores de la red de Triple-S Salud.

¿Qué son Medicamentos Genéricos (Nivel 1)?

Un genérico tiene el mismo ingrediente activo en su fórmula que un medicamento de marca. Los genéricos usualmente cuestan menos que y son aprobados por la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés).

Tu cubierta de farmacia requiere que uses el genérico como primera opción, si el genérico existe en el mercado. Si tú o tu doctor eligen un medicamento de marca en lugar de la versión genérica existente, pagarás el copago del medicamento genérico, más la diferencia entre el costo del medicamento de marca y el genérico; aun cuando tu doctor escriba “original” o “no sustituir”. Tienes derecho a solicitar con una justificación médica para que te cubramos un medicamento de marca que tiene un medicamento genérico. Si aprobamos el medicamento, pagarás el copago del Nivel 3.

¹ Aplica a ciertos anticonceptivos: Condón Femenino, Algunos Contaceptivos Orales, Dispositivo Intrauterino (IUD), Diafragma, Mirena IUD®, Plan B®, Espermicidas (OTC foam), Ortho Evra Patc®, Nuvaring®.

Cuando la versión genérica de un medicamento de marca está disponible, automáticamente se incluye en la Lista y el medicamento de marca cambia de Nivel a uno mayor, lo cual puede causar un cambio en el copago o coaseguro que pagas.

Te sugerimos que uses los medicamentos genéricos. Estos son iguales en potencia y dosis y también son aprobados por la FDA.

¿Qué son Medicamentos Preferidos (Nivel 2)?

Hay ciertos medicamentos de marca que han sido escogidos por el Comité como agentes preferidos luego de ser evaluados por seguridad, eficacia y costo. Los mismos están identificados a la derecha como Nivel 2. En aquellas clases terapéuticas donde no hay genéricos, te sugerimos que uses como primera alternativa aquellos medicamentos preferidos.

¿Qué son medicamentos de Marca No Preferidos (Nivel 3)?

Un medicamento es clasificado como “no preferido” porque existen opciones en los niveles anteriores que son más costo-efectivos o con menos efectos secundarios. Si obtienes un medicamento de marca del Nivel 3, tendrás que pagar un costo mayor por el medicamento.

¿Qué son medicamentos Especializados o Biotecnológicos Preferidos (Nivel 4)?

Los medicamentos especializados requieren una administración y/o un manejo especial, por su composición compleja. Estos se usan para el tratamiento de condiciones crónicas y de alto riesgo.

El Nivel 4 identifica los medicamentos o productos en la Lista que se ofrecen bajo el Programa de Medicamentos para Condiciones Especiales. Los medicamentos en este nivel incluyen medicamentos genéricos, biosimilares (genéricos de productos biológicos) y de marca a un costo menor y un arreglo especial para su despacho.

¿Qué son los medicamentos Especializados o Biotecnológicos No Preferidos (Nivel 5)?

El Nivel 5 incluye los Medicamentos Especializados No Preferidos. Los medicamentos en este nivel también tienen tiene un arreglo especial para su despacho con la diferencia de que tienen un costo mayor que los del Nivel 4. Estos se usan también para tratar condiciones crónicas y de alto riesgo que requieren una administración y manejo especial.

Programa para el Manejo de Medicamentos Especializados

Triple-S Salud te ofrece el Programa para el Manejo de Medicamentos Especializados para Condiciones Especiales. Este programa cuenta con una red de farmacias especializadas dedicadas a que estos medicamentos sean despachados y administrados correctamente. Las farmacias en el programa son: CVS Caremark Specialty Pharmacy, y Axium Healthcare PR Pharmacy, Special Care Pharmacy Service y SPS Specialty Pharmacy Services. Estas farmacias son proveedores altamente reconocidos en sus comunidades y en toda la Isla.

¿Qué pasa si mi medicamento no está incluido en la Lista?

Si tu medicamento no está en Lista, debes llamar a nuestro Departamento de Servicio al Cliente y preguntar si éste está cubierto. Si te enteras de que tu medicamento no está cubierto, puedes solicitar a Servicio al Cliente una lista de los medicamentos similares que estén cubiertos. Cuando la recibas, enséñala a tu doctor y pídele que te recete un medicamento similar que esté cubierto.

¿Puede cambiar la Lista?

Podemos añadir o remover medicamentos por determinadas razones. También podemos mover un medicamento de un nivel a otro. Esta lista está actualizada a la fecha de Octubre de 2016. Para obtener una lista actualizada, por favor visita nuestro portal en Internet www.ssspr.com. o llámanos al 787-774-6081.

Si la Administración de Drogas y Alimentos dispone que un medicamento en nuestra Lista no es seguro o que el manufacturero lo remueve del mercado, nosotros lo removeremos de nuestra Lista en el momento y notificaremos a los asegurados que están tomando el medicamento.

Guía de Referencia

Programa de Terapia Escalonada

En algunos casos, te solicitaremos que pruebes primero un medicamento para tratar tu condición antes de usar otros medicamentos para esa condición (terapia escalonada). Por ejemplo, si el medicamento A y B pueden tratar tu condición, puede que necesitemos que uses el medicamento A antes del B. Si el medicamento A no funciona para tratar tu condición, entonces vamos a cubrir el medicamento B.

En algunos casos necesitarás usar medicamentos OTC o medicamentos genéricos antes de usar otros medicamentos para tratar tu condición. Debes usar el medicamento OTC como primera opción para tratar las úlceras y reflujo, alergias de la nariz y alergias de los ojos. Debes usar los genéricos como primera opción para el colesterol, la osteoporosis, alergias de la nariz, insomnio, alta presión sanguínea, el control del dolor, el alto nivel de azúcar en la sangre, depresión e hiperactividad.

El Apéndice II contiene la lista de los medicamentos que tienen terapia escalonada. La misma es efectiva al momento de imprimirse esta Lista y está sujeta a cambios.

Medicamentos que Necesitan Pre-autorización (PA)

Los medicamentos que necesitan una pre-autorización usualmente son aquellos que presentan un posible nivel de toxicidad, son candidatos al uso inapropiado o están relacionados con un alto costo.

Aquellos medicamentos que han sido identificados que necesitan una pre-autorización deben cumplir unas guías clínicas según lo haya establecido el Comité. Estas guías clínicas se crearon de acuerdo a la literatura médica actual.

Medicamentos cuyo costo excedan \$500.00 necesitan una pre-autorización para su despacho. La farmacia enviará copia de la receta a MC-21 Corporation a través del fax 1-866-387-3487 o 1-866-277-6556 para la autorización de la misma.

Límites de Cantidad (QL)

Ciertos medicamentos tienen un límite en la dosis a despacharse. Estos límites se establecen de acuerdo a lo sugerido por el manufacturero como la cantidad máxima apta que no está asociada a reacciones adversas y la cual es efectiva para tratar una condición. En el área de Instrucciones de la Lista se identificaron los límites en la dosis a despacharse, en aquellos medicamentos que aplique. Estos límites son efectivos al momento de imprimirse esta Lista y está sujeta a cambios.

Límites de Especialidad Médica (SL)

Algunos medicamentos tienen un límite en la especialidad médica. Estos límites se establecen de acuerdo a la literatura médica actual.

El Apéndice I contiene la lista de los medicamentos que tienen límite de especialidad médica. La misma es efectiva al momento de imprimirse esta Lista y está sujeta a cambios.

Límites de Edad (AL)

Algunos medicamentos tienen un límite de edad. Estos límites son efectivos al momento de imprimirse esta Lista y están sujetos a cambios.

Uso de medicamentos en investigación o experimentales

Los medicamentos recetados para uso investigacional, experimental o no aprobados por la FDA, no se cubren en ningún plan de salud o cubierta de farmacia.

Las indicaciones no aprobadas por la FDA, no se cubren en ningún plan de salud o cubierta de farmacia.

Recetas de Compuestos

Las recetas de compuestos están cubiertas si contienen por lo menos un medicamento de la Lista, si no son para uso cosmético.

Éditos de Análisis de Utilización (DUR)

A través del Programa de Beneficio de Farmacia de Triple-S Salud se han implantado los siguientes éditos de análisis de utilización (DUR, por sus siglas en inglés) con el propósito de evitarte complicaciones, ofreciendo un mejor cuidado.

- Édito de Validación de Dosis - coteja las dosis máximas diarias usando como referencia las dosis pediátricas, de adultos y geriátricas de acuerdo a la información suministrada por Medi-Span®. En la mayoría de los casos, la dosis máxima es aquella aprobada por la FDA.

Medi-Span®, parte de la compañía Wolters Kluwer Health, es el proveedor líder de información sobre medicamentos con recetas que provee soluciones para interacciones de medicamentos por medio de una base de datos disponible a miles de profesionales de cuidado de salud a través del mundo entero. Los datos en la base de datos de MediSpan® ayudan eficientemente a la seguridad del paciente, reestructurar y unificar todo el sistema de comunicaciones y procesamiento de reclamaciones entre las farmacias y los administradores de beneficios de farmacia y el cumplimiento con diversas regulaciones.

- Édito de Terapia Duplicada - verifica tu historial de medicamentos para recetas duplicadas, de dos formas:
 1. Si recibes el mismo medicamento (Ej. mismo ingrediente activo) con dos recetas distintas (Ej. número de receta distinto, puede ser la misma farmacia o farmacias diferentes).
 2. Si recibes dos medicamentos de la misma clase terapéutica, como por ejemplo, dos antidepresivos o dos analgésicos, entre otros.

Hay ciertas excepciones a estos éditos. Para evitar que el sistema rechace el servicio, nosotros solicitamos a los doctores y dentistas que incluyan la siguiente información en la receta:

- Cambio en dosis

Si aumentó la dosis y necesitas más medicamentos antes de tiempo, en este caso se necesitará una carta de justificación de parte de tu doctor indicando el cambio en dosis. La farmacia necesitará una preautorización a MC-21 Corporation, luego de que se reciba la información necesaria en la receta.

1. Si la dosis se determina por tu peso, el médico debe indicar tu peso y estatura en la receta.
2. Cuando la dosis del medicamento se ajusta de acuerdo a los niveles en la sangre, el doctor debe indicarlo así en la receta (Ej. ajuste de niveles para tiroides, teofilina, anticonvulsivos y warfarina).
3. Cuando para la dosis indicada en la receta no existe su presentación farmacéutica. Por ejemplo, la tableta viene de 25 mg y 50 mg pero necesitas 75 mg (dosis indicada y aceptada). La farmacia necesitará una precertificación a MC-21 Corporation, luego de que se reciba la información necesaria en la receta (se requiere copia de la receta y hoja de preautorizaciones de MC-21 Corporation).

Leyenda - Símbolos y Abreviaturas

Símbolos y Abreviaturas	Descripción
AL	Identifica aquellos medicamentos para los cuales existe algún límite de edad
Cap	Cápsula
Conc	Concentrado
Cr	Crema
ER, SR, CR	Acción prolongada, acción sostenida, acción controlada
Inh	Inhalador
Inj	Inyectable
QL	Identifica aquellos medicamentos para los cuales existe algún límite en la cantidad que la farmacia puede despachar
SL	Identifica aquellos medicamentos para los cuales existe algún límite en la especialidad médica que debe manejar la terapia con estos productos /
Lot	Loción
Negrilla (Bold)	Identifica que el medicamento tiene genérico disponible en todas las presentaciones
Nivel 1	Identifica los medicamentos genéricos
Nivel 2	Identifica los medicamentos de marca preferidos
Nivel 3	Identifica los medicamentos de marca
Nivel 4	Identifica los Medicamentos Especializados o Biotecnológicos Preferidos /
Nivel 5	Identifica los Medicamentos Especializados o Biotecnológicos No Preferidos /
Oint	Ungüento
Oph	Oftálmico
PA	Pre-autorización. La farmacia es responsable de solicitar y obtener una pre-autorización con <i>MC-21 Corporation</i> o <i>Triple-S Salud, Inc.</i> , antes de despacharse el medicamento
SHA	Champú
SI	Sublingual
SNC	Sistema Nervioso Central
Soln	Solución
ST	Terapia Escalonada
Supp	Suppositorio
Susp	Suspensión
Tab	Tableta
Td	Transdermal

Política para el Mantenimiento de la Lista de Medicamentos

El Comité de Farmacia y Terapéutica se reúne cada mes para revisar los nuevos medicamentos y nueva información de los medicamentos que ya están en el mercado y en nuestra Lista. En el Comité participan médicos, dentistas, farmacéuticos y administradores de Triple-S Salud. Ellos revisan la información sobre la seguridad, la eficacia, el uso actual de la terapia y pruebas científicas, tales como las conclusiones pertinentes de organismos del gobierno federal, empresas farmacéuticas, asociaciones profesionales de médicos, comisiones nacionales y revistas revisadas por colegas. Doctores que no tienen intereses empresariales y financieros en Triple-S Salud, Inc. o MC-21 Corporation son los únicos que pueden votar. Los doctores, farmacéuticos y otros profesionales que son empleados de Triple-S Salud y MC-21 Corporation participan en el Comité, pero no pueden votar. Ellos van a las reuniones del Comité como coordinadores y administradores. Una vez que el Comité termina su evaluación, también miramos el valor en general (costos y descuentos del fabricante) y otros elementos antes de añadir o remover un medicamento del formulario.

El Comité establece las prioridades para la revisión basado en:

- Análisis de la utilización de medicamentos no preferidos que a menudo son recetados. Estos medicamentos se evalúan para colocarlos en otros niveles.
- Los medicamentos aprobados por la FDA
- Si un doctor o un dentista de la red de Triple-S Salud lo solicita.

Cuando un medicamento se añade a una clase, revisamos los medicamentos que podrían retirarse de esa clase, si los hubiere.

Los medicamentos que están designados como No preferidos, luego de ser evaluados por el Comité, es que no ofrecen ningún valor clínico ni económico en comparación con otros medicamentos.

En otros casos podría ser que no haya suficientes pruebas en la literatura médica que justifique su uso clínico, al momento de hacer la evaluación. También puede ser que algunas presentaciones de los productos no están disponibles para su uso ambulatorio y sólo se usen en el hospital.

Política para Solicitud de Evaluación de Inclusión o Exclusión de Medicamentos de la Lista

Todo doctor y dentista de la red de Triple-S Salud, Inc. puede pedir que se evalúe añadir y/o eliminar medicamentos a la Lista de la siguiente forma:

- El doctor o dentista debe llenar la hoja de petición de evaluación de medicamentos (*Drug List Review Request*) en todas sus partes.
- Para obtener la hoja de petición de evaluación de medicamentos (*Drug List Review Request*), él/ella debe comunicarse con el Departamento de Servicios Clínicos de MC-21 Corporation, al **787-286-6032 ext. 3289 ó 1-877-741-7470**.
- Debe enviarla por correo, luego de que sea completada en todas sus partes, a la siguiente dirección:

MC-21 Corporation
Attn: Clinical Services Department / Drug List Review Request
Call Box 4908, Caguas, PR 00726

El Departamento de Servicios Clínicos de MC-21 Corporation procederá a hacer la evaluación del producto en la petición, para ser presentada al Comité de Farmacia y Terapéutica en la fecha designada por los miembros del Comité. La solicitud de evaluación para añadir/eliminar tiene que estar completa en todas sus partes, ya que la misma formará parte de la evaluación formal que preparará el Departamento Clínico de MC-21 Corporation para dicho producto.

Política para Revisión de la Lista

Los cambios a esta Lista serán notificados a doctores y dentistas a través de comunicaciones emitidas por la División de Asuntos Clínicos de Triple-S Salud Inc. y/o a través del Pharma News, un boletín para profesionales de la salud que es distribuido seis veces al año, a todos los doctores y dentistas de la red de Triple-S Salud, Inc. Los cambios a la Lista les serán notificados a los asegurados por medio de comunicaciones escritas. La Lista se imprime cada año.

Todas las pautas para las terapias son actuales al momento de imprimirse la edición y están sujetas a cambios. Estas pautas son generales y tal vez no cubran todas las situaciones clínicas. Estas pautas no deben tomarse como sustitución al juicio clínico.

Editor

Sus comentarios y recomendaciones, con el propósito de mejorar y poner al día esta Lista, son bienvenidas. Puede enviar sus comentarios a la siguiente dirección:

English

Introduction

Your prescription drug benefit uses a Drug List. The List is a guide of drugs chosen by Triple-S Salud's Pharmacy and Therapeutics Committee, which stands for the prescription therapies needed for a high quality treatment program. Our Committee, formed of doctors, clinical pharmacists and other health experts, meet from time to time to review and decide which drugs should be added in the List. This process is based on the safety, efficacy and cost.

The Drug List has three parts.

The first part is an outline on how the List was designed. It also outlines the utilization analysis edits used to verify dose and find when two or more drugs of the same type are prescribed at the same time. These edits are used through the system of MC-21 Corporation.

The second part has the drugs by drug classes.

The third part has the Appendixes and a list in alphabetical order (Index) of brand and generic drugs in the List.

To know more on how to get your drugs, please see Section 5(f) of your FEHB Program Brochure.

This document has only some drugs covered by Triple-S Salud. If you need support or have questions call us at 787-774-6081 or visit our Website www.ssspr.com.

Part I - Drug List Design

Presentation

These examples show the information given for those drugs in the List.

Drug Name	Reference	Tier	Inst
Analgesics			
Nonsteroidal Anti-Inflammatory Drugs			
CAMBIA ORAL PACKET 50 MG	Cambia	3	QL (9 Packet per 30 days)
celecoxib oral capsule 100 mg, 200 mg, 400 mg, 50 mg	Celebrex	1	
diclofenac potassium oral tablet 50 mg	Cataflam	1	
diclofenac sodium er oral tablet extended release 24 hr* 100 mg	Voltaren-XR	1	

For all the drugs in the List the brand name, dose form, drug name, level and any special instruction will appear.

Generic drugs in the List are listed in bold (e.g., Avelox). You can also find them because they have an asterisk (*) in the "Drug Name" column. When brand drugs do not have a generic drug, the Drug Name column will be in blank (such as, Noroxin).

How do I use the Drug List?

The easiest way that you can find your drugs is seeking them in the Index that starts on page 106. The Index gives an alphabetical list of all of the drugs. Both brand and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find the coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

How much will I pay for covered drugs?

The drugs in the List are classified by levels, except for those with \$0 copay, if prescribed or supplied by participating providers.

What you pay falls into one of these tiers or levels:

- Level 1 – Generic Drugs
- Level 2 – Preferred Brand Drugs
- Level 3 – Non-Preferred Brand Drugs
- Level 4 – Preferred Specialty or Biotech Drugs
- Level 5 – Non-Preferred Specialty o Biotech Drugs

You must check your Brochure (Section 5(f)) to see how much you will pay for each one of these drugs. You will pay nothing (\$0) for these drugs, if prescribed or supplied by participating providers, as required by Federal Law:

- FDA approved birth control methods and pills (OTC and prescription)¹
- Fluoride (up to 6 years)
- Aspirin (with a limit of 1 tablet / day; over 18 years)
- Iron (up to 12 months)
- Folic acid (females only)
- EVISTA Y NOLVADEX (TO PREVENT BREAST CANCER)
- FDA approved drugs for quitting smoking (covered for 90 days in one try and up to two tries per year).

Your coverage offers you certain over the counter drugs at no cost to you if prescribed or supplied by participating providers.

What are generic drugs (Level 1)?

A generic has the same active ingredients in the same amounts as the brand-name drugs. They cost less and are approved by the FDA.

The generic drugs must be dispensed as the first choice always, except for those brand drugs covered in the List for which the generic choices do not exist. If you or your doctor chooses a brand drug instead of the generic version, you will pay the generic drug copay, plus the difference in cost between the brand and the generic drug; even though your doctor has written "Dispense as Written". You have the right to send a medical justification seeking coverage of a brand product with a generic equivalent. If we approve the drug you will pay the Level 3 copay.

When a generic comes in the market, it is added to the List and the brand drug is moved to a higher level, resulting in a change in your cost sharing.

We suggest that you use generic drugs. They are identical in strength and dose, as well as approved by the FDA.

What are preferred drugs (Level 2)?

There are some brand drugs pointed out as preferred agents after an in-depth review in terms of safety, outcomes and cost. You will find these with a Level 2 placed to the right of the name of the drug. In those drug classes where there are no generic drugs, we suggest you to use drugs that are designated as preferred as a first choice.

¹ Applies to certain birth control methods: Female Condom, Some Birth control pills, Intrauterine Device (IUD), Diaphragm, IUD Mirena ®, Plan B ®, Spermicides (Foam OTC), Ortho Evra Patch ®, NuvaRing ®.

What is Non-Preferred Brand drugs (Level 3)?

A drug is designated as Non-preferred because there are other choices in prior levels that have lesser reactions or that are more cost effective. If you get a brand drug from Level 3, you will have to pay more for that drug.

What are Preferred Specialty Drugs (Level 4)?

Specialty Drugs need special handling and storage due to their complex composition. These are used for treating high risk and life-long health problems.

The Level 4 has the drugs or products in the List that are offered under the Drug Program for Special Conditions. The drugs in this tier have generics, biosimilar (generic biologics) and brand at a lower cost and a special handling for supply.

What is Non Preferred Specialty or Biotech Drugs (Level 5)?

The Level 5 has Non-Preferred Specialty Drugs. The drugs in this level also have a special storage and handling, but have a higher cost sharing when compared to drugs from Level 4. These are used to treat life-long and high-risk health problems.

Specialty Drug Program

We offer you the Specialty Drug Management Program through our Exclusive Pharmacy Network. This program is coordinated through a network of specialized pharmacies committed to ensure that these drugs are dispensed and administered correctly. The pharmacies that participate in the program are CVS Caremark Specialty Pharmacy, Axium Healthcare PR Pharmacy, Special Care Pharmacy Service, and SPS Specialty Pharmacy Services. These pharmacies are highly recognized throughout the island.

What if my drug is not on the List?

If your drug is not in this List, you should first call our customer service department and ask if your drug is covered. If you learn that your drug is not covered, you can ask about similar drugs that are covered to treat your health problem. Show the list to your doctor and ask him or her to prescribe a drug that is covered.

Can the List change?

Yes. We may add or remove drugs for certain reasons. We might also move a drug from one tier to another. This List is up to date as of October 2016. To get an up to date List, please visit our Website at www.ssspr.com or call us at 787-774-6081.

If the Food and Drug Administration determines that a drug on our List is not safe or the drug's manufacturer removes the drug from the market, we will remove the drug right away from our List and issue a notice to members who take the drug.

Reference Guide

Step Therapy Program

In some cases, we need you to first try one drug to treat your health problem before we will cover some other drug for that health problem (Step Therapy). For example, if Drug A and Drug B both treat your health problem, we may need you use Drug A first. If Drug A does not work for you, then we will cover Drug B.

You will need to use Over-The-Counter (OTC) or Generic drugs before using other drugs to treat your health problem. You must use the OTC as first choice for treating ulcers, reflux, allergies, nasal allergies and eye allergies. You must use Generics as a first choice for cholesterol, osteoporosis, nasal allergies, insomnia, high blood pressure, pain management, high blood sugar, depression and hyperactivity drugs.

Appendix II has the list of drugs that have a Step Therapy. The Step Therapy List is subject to changes.

Drugs that Need a Pre-authorization (PA)

Drugs that need an authorization before use are likely to have higher potential for toxicity, inappropriate use or higher cost.

Those drugs that need a pre-authorization should fulfill specific clinical criteria as determined by the Committee. These criteria have been developed as stated by current medical literature.

Drugs whose cost goes beyond \$500.00 will need a pre-authorization to be dispensed. The pharmacy will send MC-21 Corporation a copy of the prescription via fax at 1-866-387-3487 or 1-866-277-6556 for authorization.

Quantity Limits (QL) on the amount to be dispensed

Certain drugs have a limit on the amount to be dispensed. These amounts are as stated by the manufacturer's indications as to the adequate amount that will not cause adverse effects and which is effective for treating health problems. The area of Instructions in the List points out the limits for those drugs that apply. Quantity limits are effective when they are published in the List and are subject to changes.

Medical Specialty Limits

Some drugs have a limit in the medical specialty; these limits are established based on current medical literature.

Appendix I has the list of drugs that has a medical specialty limit. The Step Therapy List is subject to changes.

Age Limits (AL)

Some drugs have a limit due to age. These limits are effective when they are published in the List and are subject to changes.

Uses of investigational or experimental drugs, or those not approved by the FDA, are not covered by all health plans or prescription drug coverage.

Indications not approved by the FDA, are not covered by all health plans or prescription drug coverage.

Compounded Prescriptions

Compounded prescriptions are covered drugs if they have at least one of the drugs on this List, as long as they are not for cosmetic purposes.

Edits for Drug Utilization Analysis (DUR)

Through the Pharmacy Program, we have implemented the edits below for drug use review (DUR) to avoid other health problems while offering you a better care.

- Dose check edits confirm for daily maximum doses using as reference the child, adult and aged adult doses as stated by Medi Span™. In the most of cases, the maximum dose is the one approved by the FDA.
- Duplicate Therapy edits confirm your drug history for two or more drugs of the same type are prescribed at the same time in two ways:
 1. If you get the same drug (e.g. same active ingredient) with two different prescriptions (e.g. Prescription number is different; but could be through the same pharmacy or different ones).
 2. If you get two drugs of the same drug class, such as: two anti-depressants or two analgesics.

There are exceptions to these edits. To prevent the system from denying the service, we suggest that your doctor includes in the prescription:

- Change in Dose

If the dose increases and you need your drug right away, a letter from the doctor justifying the dose change will be needed. The pharmacy will need a pre-authorization after receipt of the necessary information on that prescription.

- If the dose is determined by your weight, the doctor must write your weight and height in the prescription.
- When the dose of the drug is changed as a result to your blood levels, the doctor must write it in the prescription (e.g.: changes for thyroid, theophylline, anti-convulsiveness, and warfarin).

When the dose written in the prescription does not exists in the pharmaceutical dose form of the drug. For example, the tablet exists in 25 mg and 50 mg, but you need a 75 mg dose (dose needed and accepted). The pharmacy will need a pre-authorization after the receipt of the necessary information for the prescription (a copy of the prescription will be needed and copy of the pre-authorization form).

Legend - Abbreviations and symbols

Abbreviations and symbols	Description
AL	Drugs for which an age limit exists
Cap	Capsule
Conc	Concentrated
Cr	Cream
ER, SR, CR	Extended release, sustained release, controlled release
Inh	Inhaler
Inj	Injectable
QL	Drugs for which a dispensing limit exists
SL	Drugs for which a limit in the medical specialty exists
Lot	Lotion
Bold	If the drug has a generic available in all its dose forms
TIER 1	Generic drugs
TIER 2	Preferred drugs
TIER 3	Brand drugs
TIER 4	Preferred Specialty or Biotech Drugs
TIER 5	Non Preferred Specialty or Biotech drugs.
Oint	Ointment
Oph	Ophthalmic
PA	Pre-authorization. The pharmacy is responsible to get a prior authorization from MC-21 Corporation or Triple S, Inc. before dispensing the drug.
SHA	Shampoo
SI	Sublingual
SNC	Central Nervous System
Soln	Solution
ST	Step Therapy
Supp	Suppository
Susp	Suspension
Tab	Tablet
Td	Transdermal

Policy for the Review and Maintenance of the Drug List

The Pharmacy and Therapeutics Committee meets every month to review new drugs and new information about drugs that are already on the market and in our List. The Committee is formed of Triple-S Salud' participating doctors, dentists, pharmacists and administrators. They review available information concerning safety, effectiveness, current use in therapy and scientific evidence, such as relevant findings of federal government agencies, pharmaceutical manufacturers, medical professional associations, national commissions and peer-reviewed journals. Doctors not working in or having business and financial interests in Triple-S Salud, Inc. or MC-21 Corporation are the only ones with the right to vote. Doctors, pharmacists and other professionals who are Triple-S Salud's and MC-21 Corporation's employees who are part of the Committee do not have the right to vote. They go to Committee meetings as coordinators and health plan administrators. Once the P&T Committee completes its clinical review, we also consider overall value (including cost and manufacturer rebate arrangements) and other factors before adding or removing a drug from the formulary such as:

The Committee sets up the priorities for the review of drugs based on these criteria:

- Analysis of the use of Non-Preferred drugs that are often prescribed. These drugs will be evaluated to add them in other levels.
- Drugs recently approved by the FDA.
- A request made by a participating doctor or dentist in Triple-S Salud' network.

When a drug is added to a drug class, we will review those drugs that could be removed from that class, if any.

Drugs that are Not Included in the Drug List (NF) after review do not offer clinical and economic advantages when compared with other choices. For example; (i) at the time of the review there is no proof in the medical literature that justifies their use. Or, (ii) the drug is used exclusively on an inpatient basis.

Plan doctors and dentists will be notified of the decisions made by the Committee by communications issued by Triple-S Salud's Medical Affairs Division and the Pharma News, a bi-monthly newsletter for health care professionals and participating providers in Triple-S Salud's providers' network.

Policy for Requesting Us to Evaluate Drugs to be Added or Removal of Drugs from the List

Any plan doctor and/or dentist can request us to review the drugs to be added or removed from the List with these instructions:

- The doctor or dentist should complete in all parts the form for the review of drugs, known as Drug List Review Request.
- To get the form you should communicate with the Clinical Services Department in MC-21 Corporation by calling **787-286-6032 ext. 3289 or 1-877-741-7470**.
- After completing all parts, you should mail the form to the following address:

**MC-21 Corporation
Attn: Clinical Services Department / Drug List Review Request
Call Box 4908, Caguas, PR 00726**

MC-21's Clinical Service Department will review the product in the Review Request Form and will send it to the Pharmacy and Therapeutics Committee on the designated date. It is important that all parts of the form are completed because it will become part of the formal documentation that MC-21's Clinical Services Department will prepare for each product.

Policy for the Drug List Reviews

We will issue notices to plan doctors and dentists of the changes to the List and/or through the Pharma News, a bi-monthly newsletter for health care professionals and participating providers in the provider's network. Notices with the changes to the List will be also sent to members. The List is printed each year.

All guidelines for the therapies are updated at the time of printing of this edition and are subject to changes. These guidelines are general and do not have all clinical situations. These guidelines shall not be construed as a substitute for a clinical judgment.

Editor

Your comments and suggestions to this List are welcome. You can send your comments to:

**Comité de Farmacia y Terapéutica
EDITOR
MC-21 Corporation
Call Box 4908, Caguas, PR 00726**

Comments

The information in this Drug List shall not be a substitute for knowledge, experience and clinical judgment of the doctors. **The doctors shall continue using their clinical judgment in his/her choice of drugs when treating a patient.** MC-21 Corporation and Triple-S Salud, Inc. are not responsible for the actions and omissions of the doctors based on the information in this List.

For detailed information, the doctor must refer to the literature available by the product's manufacturer in the product insert (PI) or in reference books. **Also, more information will be available through the Drug Information Center, an exclusive service offered by MC-21 Corporation to the participating doctors and dentists in Triple-S Salud' Provider Network.**

Reserved Rights

The Drug List is a literary property. MC-21 Corporation and Triple-S Salud, Inc. are the proprietors of the author's rights. Under no circumstances may this material be copied or distributed in whole or any part without the written consent of MC-21 Corporation and Triple-S Salud, Inc.

Parte III – Apéndices / Part III - Appendixes

Apéndice I – Terapias Escalonadas / Appendix I – Step Therapies

Step Therapy Group	Algorithm
Agonistas del Receptor GLP-1 (Trulicity, Bydureon, Byetta, Victoza)	<p>System will search for 60 days of use for Step 1 drugs in the last 365 days.</p> <p>Step 1: Use of biguanides or sulfonylureas or glitazones first</p> <p>Step 2: Dulaglutide/ Trulicity, Exenatide / Byetta, Exenatide Extended Release / Bydureon, liraglutide / Victoza</p>
Amlodipine Olmesartan (Azor), Amlodipine Valsartan (Exforge), Amlodipine Valsartan HCT(Exforge HCT)	<p>System will search for 30 days of use for Step 1 drugs in the last 365 days.</p> <p>Step 1: Use use of dihydropyridine CCB or diuretic, plus ACE I or ARB firts</p> <p>Step 2: Amlodipine Besylate-Olmesartan Medoxomil/ Azor, Amlodipine Besylate-Valsartan/ Exforge, Amlodipine-Valsartan-Hydrochlorothiazide/ Exforge Hct</p>
Atomoxetine (Strattera)	<p>System will search for 30 days of use for Step 1 drugs in the last 365 days.</p> <p>Step 1: Use of methylphenidate or amphetamin first</p> <p>Step 2: Atomoxetine/ Strattera</p>
Bisphosphonates / Bifosfonatos Actonel, Atelvia, Boniva, Fosamax soln, Fosamax D, Binosto	<p>System will search for 30 days of use for Step 1 drugs in the last 365 days.</p> <p>Step 1: Use of Alendronate first</p> <p>Step 2: Alendronate Sodium Oral Soln/ Fosamax, Alendronate Sodium-Cholecalciferol/ Fosamax Plus- D, Ibandronate Sodium/ Boniva, Risedronate Sodium/ Actonel- Atelvia</p>
Bloqueadores del receptor de angiotensina (ARBs)	<p>System will search for 30 days of use for Step 1 drugs in the last 365 days.</p> <p>Step 1: Use irbesartan, irbesartan hct, losartan hct, valsartan hct or losartan first</p> <p>Step 2: Azilsartan Medoxomil/ Edarbi, Azilsartan Medoxomil-Chlorthalidone/ Edarvyclor, Candesartan Cilexetil/ Atacand,</p>

Step Therapy Group	Algorithm
	Candesartan Cilexetil-Hydrochlorothiazide/ Atacand Htc, Olmesartan Medoxomil/ Benicar, Olmesartan Medoxomil-Hydrochlorothiazide/ Benicar Htc, Telmisartan/ Micardis, Telmisartan-Hydrochlorothiazide/ Micardis Htc, Valsartan/ Diovan
Calcineurin Inhibitors / Inhibidores de Calcineurina (Elidel, Protopic)	System will search for 15 days of use for Step 1 drugs in the last 365 days. Step 1: Use of topical steroids or ammonium lactate first Step 2: Use of Pimecrolimus / Elidel, Tacrolimus / Protopic
Carvedilol Phosphate SR (Coreg CR)	System will search for 30 days of use for Step 1 drugs in the last 365 days Step 1: Use of carvedilol tab first Step 2: Carvedilol Phosphate/ Coreg CR
Desvenlafaxine (Pristiq & Khedezla)	System will search for 30 days of use for Step 1 drugs in the last 365 days Step 1: Use of venlafaxine or duloxetine first Step 2: Desvenlafaxine/Khedezla, Desvenlafaxine Succinate/ Pristiq
Dronedarone (Multaq)	System will search for 1 prescription of use for Step 1 drugs in the last 365 days. Step 1: Use of amiodarone first Step 2: Dronedarone Hcl/ Multaq
Eplerenone (Inspra)	System will search for 30 days of use for Step 1 drugs in the last 365 days. Step 1: Use of spironolactone, spironolactone/HCTZ or eplerenone Step 2: Eplerenone/ Inspira
Ezetimibe - Simvastatin (Vytorin 10-10mg, 10-20mg, 10-40mg), Ezetimibe (Zetia)	System will search for 60 days of use for Step 1 drugs in the last 365 days. Step 1: Use generic statins or combinations first. Step 2: Ezetimibe-Atorvastatin/ Liptruzet, Ezetimibe-Simvastatin / Vytorin, Ezetimibe/ Zetia
Fluoxetine DR (Prozac Weekly)	System will search for 30 days of use for Step 1 drugs in the last 365 days. Step 1: Use of fluoxetine cap, tab, sol or delayed releases

Step Therapy Group	Algorithm
	Step 2: Fluoxetine DR/ Prozac Weekly
Inhibidores Dipeptidil Peptidase-4 (DPP-4) y Comb. (Nesina, Kazano)	System will search for 60 days of use for Step 1 drugs in the last 365 days. Step 1: Use Biguanides/DPP4 or TZD Step 2: Alogliptin Benzoate/ Nesina, Alogliptin-Metformin Hcl/ Kazano
Intranasal Corticosteroids / Corticosteroideos Intranasales	System will search for 1 prescription of use for Step 1 drugs in the last 365 days. Step 1: Use fluticonasone propionate, flunisolide or triamcinolone acetonide OTC first Step 2: Beclomethasone Dipropionate/ Qnasi- Qnasi Child, Budesonide Nasal/ Rhinocort Aqua, Fluticasone Furoate / Veramyst, Triamcinolone Acetonide / Nasacort, Mometasone Furoate/ Nasonex
Levetiracetam (Keppra XR)	System will search for 1 prescription of use for Step 1 drugs in the last 365 days. Step 1: Use of levetiracetam tabs first Step 2: Levetiracetam/ Keppra XR
Metformin Tab SR Osmotic (Fortamet)	System will search for 30 days of use for Step 1 drugs in the last 365 days. Step 1: Use of metformin IR or metformin SR Step 2: Metformin Tab SR Osmotic/ Fortamet
Mirabegron (Myrbetriq)	System will search for 30 days of use for Step 1 drugs in the last 365 days. Step 1: Use oxybutinin/tolterodine first Step 2: Mirabegron / Myrbetriq
Nebivolol (Bystolic)	System will search for 60 days of use for Step 1 drugs in the last 365 days. Step 1: Use of beta-blocker cardio selective or alpha-beta blocker first Step 2: Nebivolol/ Bystolic
Non-sedating antihistamines / Antihistamínicos No	System will search for 15 days of use for Step 1 drugs in the last 365 days.

Step Therapy Group	Algorithm
Sedantes (Claritinex, Claritinex D, Xyzal)	Step 1: Use Allegra OTC/ fexofenadine, Allegra- D/ Fexofenadine-Pseudoephedrine, Claritin OTC, Zyrtec OTC first Step 2: Desloratadine/ Claritinex, Desloratadine & Pseudoephedrine/ Claritinex- D, Levocetirizine Dihydrochloride / Xyzal
Ocular allergies / Anti-Alérgicos Oculares Emadine, Lastacraft, Optivar, Patanol, Pataday	System will search for 15 days of use for Step 1 drugs in the last 365 days. Step 1: Use of ketotifen OTC first Step 2: Azelastine Hcl/ Optivar, Alcaftadine/Lastacraft, Emedastine Difumarate/ Emadine, Olopatadine /Patanol, Olopatadine HCl/ Pataday
Paliperidone palmitate (Invega Trinza)	System will search for 120 days of use for Step 1 drugs in the last 365 days. Step 1: Use of Invega Sustenna first Step 2: Paliperidone palmitate/ Invega Trinza
Pioglitazone y Combinaciones (Actos, Actoplus Met, Actoplus Met XR, Duetact)	System will search for 60 days of use for Step 1 drugs in the last 365 days. Step 1: Use of biguanidas or sulfonylureas first Step 2: Pioglitazone Hcl/ Actos, Pioglitazone Hcl-Glimepiride/ Duetact, Pioglitazone Hcl-Metformin Hcl/ Actoplus Met- Actoplus Met XR
Proton Pump Inhibitors / Inhibidores de la Bomba de Protón	System will search for 30 days of use for Step 1 drugs in the last 365 days. Step 1: Use Prilosec OTC/Prevacid OTC/Zegerid OTC or omeprazole or pantoprazole generic Step 2: Dexlansoprazole/ Kapidex, Esomeprazole Magnesium/ Nexium- Nexium 24hrs, Lansoprazole/ Prevacid- Prevacid Solutab, Pantoprazole Sodium/ Protonix Pack, Rabeprazole Sodium Ec/ Aciphex, Omeprazole-Sodium Bicarbonate/ Zegerid
Quetiapine SR (Seroquel XR)	System will search for 30 days of use for Step 1 drugs in the last 365 days. Step 1: Use generic quetiapine first Step 2: Quetiapine SR/ Seroquel XR
Ropirinole (Requip XL)	System will search for 30 days of use for Step 1 drugs in the last 365 days.

Step Therapy Group	Algorithm
	Step 1: Use of ropinirole first Step 2: Ropirinole/ Requip XL
SGLT2+DPP4 ST (Glyxambi, Synjardy)	System will search for 60 days of use for Step 1 drugs in the last 365 days. Step 1: Use of MET, SU, TZD, GLP-1, a-glucosidase inhibitors, DPP4-I, SGLT-2 I or combinations first Step 2: Empagliflozin-Linagliptin / Glyxambi, Empagliflozin-metformin hcl/ Synjardy
Simvastatin 80 mg y ezetimibe simvastatin 10-80 mg	System will search for 365 days of use for Step 1 drugs in the last 365 days. Step 1: Restricted to patients taking this dose for at least 12 months. Step 2: Ezetimibe-Simvastatin Tab 10-80 Mg/ Vytorin, Simvastatin Tab 80 Mg/ Zocor
Statins / Estatinas	System will search for 60 days of use for Step 1 drugs in the last 365 days Step 1: Use of simvastatin, pravastatin, atorvastatin, rosuvastatin calcium or lovastatin Step 2: Fluvastatin Sodium/ Lescol- Lescol XR, Lovastatin/ Altrovet, Pitavastatin Calcium/ Livalo

Apéndice II – Límites de Especialidad / Appendix II – Specialty Limits (SL)

En el formulario hay medicamentos asociados a las iniciales **SL**. **SL** significa que dichos medicamentos requieren que un especialista evalúe el paciente y los recete. La siguiente tabla muestra cuales son estos productos e indica el especialista que debe prescribirlos.

*The formulary includes drugs associated to the **SL** abbreviation. **SL** means that those medications require that a specialist evaluates the patient and prescribe them. The following table shows which are those products and the specialist that must prescribe them.*

Producto (Product)	Especialista (Specialist)
Antihemophilic & Coagulation Factors	Hematólogo /Hematologist

Apéndice III – Solicitud de Excepción Médica / Appendix III - Medical Exception Application

Nombre del Paciente y Representante Personal (si aplica): _____

Núm. Contrato _____ Núm. de Grupo: _____

Se solicita la aprobación de:

- Medicamento no está incluido en el formulario
- Cubierta continuada para medicamento que se descontinuar
- Excepción a un procedimiento de manejo de medicamento (ei, terapia escalonada)
- Excepción a un procedimiento de limitación de dosis

Razones para la solicitud de excepción médica:

- En el formulario no figura un medicamento clínicamente aceptable para tratar la condición del paciente.
- El medicamento que procede conforme a la terapia escalonada es ineficaz para la condición o el paciente, es probable que cause daño al paciente o ya el paciente se encontraba en un nivel más avanzado bajo otro plan médico.
- La dosis disponible para medicamento probablemente es ineficaz para la condición o el paciente.

Historial breve del paciente:

Diagnóstico primario relacionado con el medicamento de receta objeto de la solicitud (incluya código y descripción):

Descripción de la necesidad médica de medicamento para el cual se solicita la excepción:
(Incluya hoja adicional de ser necesario)

Nombre de la Persona que expide la receta

de Proveedor (NPI)

Esta Lista de Medicamentos se revisa una vez al año para asegurar la mayor calidad y costo-efectividad de los medicamentos que incluye.

This Drug List is revised once a year to assure the best quality and cost-effectiveness of the drugs that it includes.

La cubierta de farmacia del asegurado es la que determina si el medicamento está cubierto o excluido.

It is the insured's pharmacy coverage which determines if the drug is covered or excluded.

El Programa de Farmacia de Triple-S Salud es un producto de Triple-S Salud administrado por MC-21 Corp., un contratista independiente de servicios de farmacia.

Triple-S Salud Pharmacy Program is a Triple-S Salud product administered by MC-21 Corp., a pharmacy services independent contractor.
