### Introducción

Tu beneficio de farmacia con Triple-S Salud usa una Lista de Medicamentos. La Lista de Medicamentos es una guía de los medicamentos seleccionados por el Comité de Farmacia y Terapéutica de Triple-S Salud, la cual representa los medicamentos vitales para un cuidado de alta calidad. Nuestro Comité de Farmacia y Terapéutica está formado por doctores, farmacéuticos clínicos y otros expertos de la salud, quienes se reúnen periódicamente para evaluar y escoger aquellos medicamentos que serán añadidos en esta Lista de Medicamentos. Esta selección se hace a base de la seguridad, efectividad y costo de los medicamentos. La Lista de Medicamentos se divide en tres partes:

La primera parte es un resumen que te ofrece información sobre la forma en que se diseñó la Lista. También se incluye una descripción de los éditos de utilización para validar dosis e identificar terapias duplicadas.

La segunda parte tiene los medicamentos por clase terapéutica.

La tercera parte contiene los Apéndices y una lista por orden alfabético (Índice) de los medicamentos de marca y genéricos en la Lista.

Para más información de cómo obtener tus medicamentos, busca la Sección 5(f) de tu Guía del Programa FEHB.

Esta es una lista parcial e incluye sólo algunos medicamentos cubiertos por Triple-S Salud. Si deseas más información visita nuestro portal [www.ssspr.com](http://www.ssspr.com) o llama a nuestro Departamento de Servicio al Cliente:

## **Parte I – Diseño y Manejo de la Lista de Medicamentos**

### **Presentación de la Lista de Medicamentos**

A continuación, presentamos la información que ofrecemos para los medicamentos en la Lista.

<b>Nombre del Medicamento</b>	<b>Referencia</b>	<b>Nivel</b>	<b>Instrucciones</b>
<b>Antigota</b>			
<b>allopurinol oral tablet 100 mg, 300 mg</b>	Zyloprim	1	
<b>colchicine oral tablet 0.6 mg</b>	Colcrys	1	
<b>colchicine-probenecid oral tablet 0.5-500 mg</b>		1	
<b>probenecid oral tablet 500 mg</b>		1	
<b>ULORIC ORAL TABLET 40 MG, 80 MG</b>		2	PA; QL (1 TAB per 1 day)

Para todos los medicamentos en la Lista de Medicamentos aparece el nombre del medicamento, nombre de referencia (si aplica), el nivel y si tiene alguna instrucción especial.

### **¿Cómo puedo usar mi Lista de Medicamentos?**

La forma más fácil en que puedes conseguir tus medicamentos en la Lista es buscando tu medicamento en el Índice que comienza en la página 146. El Índice provee una lista por orden alfabético de todos los medicamentos en este documento. Ambos, medicamentos de marca y genéricos, están en el Índice. Busca el Índice y encuentra tu medicamento. Al lado de tu medicamento, encontrarás el número de la página dónde sale la información de la cubierta. Busca la página indicada en el Índice y encuentra el nombre del medicamento en la primera columna de la Lista.

### **¿Cuánto voy a pagar por los medicamentos cubiertos?**

Los medicamentos en la lista se clasifican por niveles, menos aquellos que tienen \$0 copago, si son recetados o provistos por proveedores de la red de Triple-S Salud. Estos niveles identifican el costo compartido, o sea lo que pagas, por cada medicamento en la receta. Estos niveles son los siguientes:

- Nivel 1 – Medicamentos Genéricos
- Nivel 2 – Medicamentos de Marca Preferidos
- Nivel 3 – Medicamentos de Marca No Preferidos
- Nivel 4 – Medicamentos Especializados o Biotecnológicos Preferidos
- Nivel 5 – Medicamentos Especializados o Biotecnológicos No Preferidos

## **¿Qué son Medicamentos Genéricos (Nivel 1)?**

Un medicamento genérico tiene el mismo ingrediente activo en su fórmula que un medicamento de marca. Los genéricos son aprobados por la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés) y usualmente cuestan menos que el de marca.

Los medicamentos genéricos de las siguientes categorías tienen \$0.00 copago si son recetados por proveedores de la red de Triple-S Salud:

- Antihipertensivos genéricos: inhibidores de la enzima convertidora de angiotensina (ACEIs, por sus siglas en inglés), antagonistas de los receptores de la angiotensina II (ARBs, por sus siglas en inglés), inhibidor directo de la renina;
- Antidiabéticos orales genéricos (excluye inyectables);
- Estatinas genéricas;
- Naloxona.

Te sugerimos que uses los medicamentos genéricos. Estos son iguales en potencia y dosis y también son aprobados por la FDA.

## **¿Qué son Medicamentos de Marca Preferidos (Nivel 2)?**

Hay ciertos medicamentos de marca que han sido escogidos por el Comité como agentes preferidos luego de ser evaluados por seguridad, eficacia y costo. Los mismos están identificados a la derecha como Nivel 2. En aquellas clases terapéuticas donde no hay genéricos, te sugerimos que uses como primera alternativa aquellos medicamentos preferidos.

## **¿Qué son Medicamentos de Marca No Preferidos (Nivel 3)?**

Un medicamento es clasificado como “no preferido” porque existen opciones en los niveles anteriores que son más costo-efectivos o con menos efectos secundarios. Si obtienes un medicamento de marca del Nivel 3, tendrás que pagar un costo mayor por el medicamento.

## **¿Qué son Medicamentos Especializados o Biotecnológicos Preferidos (Nivel 4)?**

Los medicamentos especializados requieren una administración y/o un manejo especial, por su composición compleja. Estos se usan para el tratamiento de condiciones crónicas y de alto riesgo.

El Nivel 4 identifica los medicamentos o productos en la Lista que se ofrecen bajo el Programa de Medicamentos para Condiciones Especiales. Los medicamentos en este nivel incluyen medicamentos

genéricos, biosimilares (genéricos de productos biológicos) y de marca a un costo menor y un arreglo especial para su despacho.

### **¿Qué son los Medicamentos Especializados o Biotecnológicos No Preferidos (Nivel 5)?**

El Nivel 5 incluye los Medicamentos Especializados No Preferidos. Los medicamentos en este nivel también tienen un arreglo especial para su despacho con la diferencia de que tienen un costo mayor que los del Nivel 4. Estos se usan también para tratar condiciones crónicas y de alto riesgo que requieren una administración y manejo especial.

### **¿Puede cambiar la Lista?**

Podemos añadir o remover medicamentos por determinadas razones, incluyendo si la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés) y/o el manufacturero remueven un medicamento del mercado. También podemos mover un medicamento de un nivel a otro. Esta lista se actualiza periódicamente. Para obtener una lista actualizada, por favor visita nuestro portal en Internet [www.ssspr.com](http://www.ssspr.com) o llámanos a

**Puerto Rico: 787-774-6081 (TTY: 787-792-1370)**

**USVI: 800-716-6081 (TTY:866-215-1999)**

## **Guía de Referencia**

### **Programa de Terapia Escalonada**

En algunos casos, te solicitaremos que pruebes primero un medicamento para tratar tu condición antes de usar otros medicamentos para esa condición (terapia escalonada). Por ejemplo, si el medicamento A y B pueden tratar tu condición, puede que necesitemos que uses el medicamento A antes del B. Si el medicamento A no funciona para tratar tu condición, entonces vamos a cubrir el medicamento B.

En algunos casos necesitarás usar medicamentos OTC o medicamentos genéricos antes de usar otros medicamentos para tratar tu condición. Debes usar el medicamento OTC como primera opción para tratar las úlceras y reflujo, alergias de la nariz y alergias de los ojos. Debes usar los genéricos como primera opción para el colesterol, la osteoporosis, alergias de la nariz, insomnio, alta presión sanguínea, el control del dolor, el alto nivel de azúcar en la sangre, depresión e hiperactividad, entre otros.

El Apéndice I contiene la lista de los medicamentos que tienen terapia escalonada. La misma es efectiva al momento de imprimirse esta Lista y está sujeta a cambios.

### **Medicamentos que Necesitan Preautorización (PA)**

Los medicamentos que necesitan una preautorización usualmente son aquellos que presentan un posible nivel de toxicidad, son candidatos al uso inapropiado o están relacionados con un alto costo.

Aquellos medicamentos que han sido identificados que necesitan una preautorización deben cumplir unas guías clínicas según lo haya establecido el Comité. Estas guías clínicas se crearon de acuerdo a la literatura médica actual.

Medicamentos cuyo costo excedan \$750.00 necesitan una preautorización para su despacho. La farmacia enviará copia de la receta al número de facsímil que recibe a través de su sistema.

### **Límites de Cantidad (QL)**

Ciertos medicamentos tienen un límite en la dosis a despacharse. Estos límites se establecen de acuerdo con lo sugerido por el manufacturero como la cantidad máxima apta que no está asociada a reacciones adversas y la cual es efectiva para tratar una condición. En el área de Instrucciones de la Lista se identificaron los límites en la dosis a despacharse, en aquellos medicamentos que aplique. Estos límites son efectivos al momento de imprimirse esta Lista y está sujeta a cambios.

### **Límites de Especialidad Médica (SL)**

Algunos medicamentos tienen un límite en la especialidad médica. Estos límites se establecen de acuerdo con la literatura médica actual.

El Apéndice II contiene la lista de los medicamentos que tienen límite de especialidad médica. La misma es efectiva al momento de imprimirse esta Lista y está sujeta a cambios.

## **Límites de Edad (AL)**

Algunos medicamentos tienen un límite de edad. Estos límites son efectivos al momento de imprimirse esta Lista y están sujetos a cambios.

## **Uso de medicamentos en investigación o experimentales**

Los medicamentos recetados para uso de investigación, experimental o no aprobados por la FDA, no se cubren en ningún plan de salud o cubierta de farmacia.

## **Recetas de Compuestos**

Las recetas de compuestos están cubiertas si contienen por lo menos un medicamento de la Lista, si no son para uso cosmético.

## **Éditos de Análisis de Utilización (DUR)**

A través del Programa de Beneficio de Farmacia de Triple-S Salud se han implantado los siguientes éditos de utilización (DUR, por sus siglas en inglés) con el propósito de evitarte complicaciones, ofreciendo un mejor cuidado.

- Édito de Validación de Dosis - coteja las dosis máximas diarias para la población pediátrica, adulta y geriátrica.
- Édito de Terapia Duplicada - verifica tu historial de medicamentos para recetas duplicadas, de dos formas:
  1. Si recibes el mismo medicamento (Ej. mismo ingrediente activo) con dos recetas distintas (Ej. número de receta distinto, puede ser la misma farmacia o farmacias diferentes).
  2. Si recibes dos medicamentos de la misma clase terapéutica, como, por ejemplo, dos antidepresivos o dos analgésicos, entre otros.

Hay ciertas excepciones a estos éditos. Se solicita a los médicos que incluyan la siguiente información en la receta:

- Cambio en dosis

Si aumentó la dosis y necesitas más medicamentos antes de tiempo, en este caso se necesitará una carta de justificación de parte de tu médico indicando el cambio en dosis. La farmacia necesitará una preautorización de Triple-S Salud, Inc. luego de que se reciba la información necesaria en la receta.

1. Si la dosis se determina por tu peso, el médico debe indicar tu peso y estatura en la receta.
2. Cuando la dosis del medicamento se ajusta de acuerdo a los niveles en la sangre, el médico debe indicarlo así en la receta (Ej. ajuste de niveles para tiroides, teofilina, anticonvulsivos y warfarina).
3. Cuando para la dosis indicada en la receta no existe su presentación farmacéutica. Por ejemplo, la tableta viene de 25 mg y 50 mg, pero necesitas 75 mg (dosis indicada y aceptada). La farmacia necesitará una precertificación de Triple-S Salud, Inc.

## **Política para el Mantenimiento de la Lista de Medicamentos**

El Comité de Farmacia y Terapéutica se reúne periódicamente para revisar los nuevos medicamentos, y nueva información de los medicamentos que ya están en el mercado y en nuestra Lista. Los participantes del Comité revisan la información sobre la seguridad, la eficacia, el uso actual de la terapia y pruebas científicas, tales como las conclusiones pertinentes de organismos del gobierno federal, empresas farmacéuticas, asociaciones profesionales de médicos, comisiones nacionales y revistas revisadas por colegas. Una vez que el Comité termina su evaluación clínica, se considera costo para determinar la inclusión o remoción de un medicamento de la Lista.

### **Introduction**

Your prescription drug benefit uses a Drug List. The List is a guide of drugs chosen by Triple-S Salud's Pharmacy and Therapeutics Committee, which represents the prescription therapies needed for high-quality treatment. Our Committee, composed of physicians, clinical pharmacists and other healthcare providers, meet periodically to review and decide which drugs should be added to the List. This review process is based on the drug's safety, efficacy and cost.

The Drug List has three parts.

The first part is an outline on how the List was designed. It also outlines the utilization edits used to verify dose and identify when two or more drugs of the same class are prescribed at the same time.

The second part has the drugs by therapeutic class.

The third part has the Appendixes and a list in alphabetical order (Index) of brand and generic drugs in the List.

To know more on how to get your drugs, please see Section 5(f) of your FEHB Program Brochure.

This document has only some drugs covered by Triple-S Salud. If you need support or have questions visit our Website [www.ssspr.com](http://www.ssspr.com) or call us at:

## **Part I - Drug List Design**

### **Presentation**

These examples show the information given for those drugs in the List.

Drug Name	Reference	Level	Instructions
<b>Antigout Agents</b>			
allopurinol oral tablet 100 mg, 300 mg	Zyloprim	1	
colchicine oral tablet 0.6 mg	Colcrys	1	
colchicine-probenecid oral tablet 0.5-500 mg		1	
probenecid oral tablet 500 mg		1	
ULORIC ORAL TABLET 40 MG, 80 MG		2	PA; QL (1 TAB per 1 day)

For all the drugs in the List the drug name, reference name (if applicable), level and any special instructions will appear.

### **How do I use the Drug List?**

The easiest way to find your drugs is seeking them in the Index that starts on page 146. The Index provides an alphabetical list of all the drugs in this List. Both brand and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find the coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the List.

### **How much will I pay for covered drugs?**

The drugs in the List are classified by levels, except for those with \$0 copay, if prescribed or supplied by participating providers.

What you pay for each prescribed drug falls into one of these tiers or levels:

- Level 1 – Generic Drugs
- Level 2 – Preferred Brand Drugs
- Level 3 – Non-Preferred Brand Drugs
- Level 4 – Preferred Specialty or Biotech Drugs
- Level 5 – Non-Preferred Specialty o Biotech Drugs

## **What are Generic Drugs (Level 1)?**

A generic drug has the same active ingredients in the same amounts as the brand-name drugs. They cost less and are approved by the FDA.

The generic medications from the following therapeutic categories have \$0 copay, if prescribed by participating providers:

- Generic antihypertensives: Angiotensin converting enzyme inhibitors (ACEIs), Angiotensin II receptor blockers (ARBs), Direct renin inhibitor;
- Generic Oral Antidiabetics (excludes injectables);
- Generic statins;
- Naloxone.

We suggest that you use generic drugs. They are identical in strength and dose, as well as approved by the FDA.

## **What are Preferred Brand Drugs (Level 2)?**

There are some brand drugs pointed out as preferred agents after an in-depth review in terms of safety, efficacy and cost. You will find these with a Level 2 placed to the right of the drug name. In those therapeutic categories where there are no generic drugs, we suggest you use drugs that are designated as preferred as a first choice.

## **What are Non-Preferred Brand Drugs (Level 3)?**

A drug is designated as non-preferred because there are other choices in prior levels that have lesser adverse reactions or are more cost effective. If you get a brand drug from Level 3, you will have to pay more for the drug.

## **What are Preferred Specialty Drugs (Level 4)?**

Specialty Drugs need special handling and storage due to their complex composition. These are used for treating high risk and life-long health problems.

The Level 4 has the drugs or products in the List that are offered under the Special Conditions Drug Program. The drugs in this tier includes generics, biosimilars (generic biologics) and brands at a lower cost and a special handling for dispensing.

## **What are Non-Preferred Specialty or Biotech Drugs (Level 5)?**

The Level 5 has Non-Preferred Specialty Drugs. The drugs in this level also need special storage and handling, but have a higher cost sharing when compared to drugs from Level 4. These are used to treat life-long and high-risk health problems.

## **Can the Drug List change?**

Yes. We may add or remove drugs for certain reasons, including if the Food and Drug Administration (FDA) and or the manufacturer have determined to remove the drug from the market. We might also move a drug from one tier to another. This List is updated periodically. For an updated List, please visit our Website at [www.ssspr.com](http://www.ssspr.com) or call us at

**Puerto Rico: 787-774-6081 (TTY: 787-792-1370)**

**USVI: 800-716-6081 (TTY: 866-215-1999)**

## **Reference Guide**

### **Step Therapy Program**

In some cases, we require you to first try one drug to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may require your doctor to prescribe Drug A first. If Drug A does not work for you, then we will cover Drug B.

You will need to use Over-The-Counter (OTC) or Generic Drugs before using other drugs to treat your health problem. You must use the OTC as first choice for treating ulcers, reflux, allergies, nasal allergies and eye allergies. You must use generics as a first choice for cholesterol, osteoporosis, nasal allergies, insomnia, high blood pressure, pain management, high blood sugar, depression and hyperactivity drugs, among others.

Appendix I has the list of drugs that have a Step Therapy. The Step Therapy List is subject to changes.

### **Drugs that Need a Prior Authorization (PA)**

Drugs that need an authorization before use are likely to have higher potential for toxicity, inappropriate use or higher cost. Those drugs that need a prior authorization should fulfill specific clinical criteria as determined by the Committee. These criteria have been developed as stated by current medical literature.

Drugs whose cost goes beyond \$750.00 will need a prior authorization to be dispensed. The pharmacy will send a copy of the prescription via fax to the number displayed in the pharmacy system.

### **Quantity Limits (QL) on the amount to be dispensed**

Certain drugs have a limit on the amount to be dispensed. These amounts are as stated by the manufacturer's indications as to the adequate amount that will not cause adverse effects and which is effective for treating health problems. The area of Instructions in the List points out the limits for those drugs that apply. Quantity limits are effective when they are published in the List and are subject to changes.

### **Medical Specialty Limits**

Some drugs have a limit in the medical specialty; these limits are established based on current medical literature.

Appendix II has the list of drugs that has a medical specialty limit. The medical specialty limit list is subject to changes.

## **Age Limits (AL)**

Some drugs have a limit due to age and are subject to changes.

## **Investigational or Experimental Drugs**

Uses of investigational or experimental drugs, or those not approved by the FDA, are not covered by all health plans or prescription drug coverage.

## **Compounded Prescriptions**

Compounded prescriptions are covered if they have at least one of the drugs on this List, and if they are not for cosmetic purposes.

## **Edits for Drug Utilization Analysis (DUR)**

Through the Pharmacy Program, we have implemented the edits below for drug utilization review (DUR) to avoid other health problems while offering you a better care.

- Dose check edits - Verify daily maximum doses for pediatric, adult and geriatric population. In the most of cases, the maximum dose is the one approved by the FDA.
- Duplicate Therapy edits- Verify your drug history for duplicate prescriptions in two ways:
  1. If you get the same drug (e.g. same active ingredient) with two different prescriptions (e.g. prescription number is different; could be through the same pharmacy or different ones).
  2. If you get two drugs of the same therapeutic category, such as: two antidepressants or two analgesics.

There are exceptions to these edits. We suggest that your doctor includes in the prescription:

- Change in Dose

If the dose is increased and you need your drug right away, a letter from your doctor justifying the dose change will be needed. The pharmacy will need a prior authorization after the necessary information is received.

1. If the dose is determined by weight, the doctor must write your weight and height in the prescription.

2. When the dose of the drug is changed as a result to your blood levels, the doctor must write it in the prescription (e.g.: changes for thyroid, theophylline, anti-convulsiveness, and warfarin).
3. When the dose written in the prescription does not exist in the pharmaceutical dosage form of the drug. For example, the tablet exists in 25 mg and 50 mg, but you need a 75 mg dose (dose needed and accepted).

## **Policy for the Review and Maintenance of the Drug List**

The Pharmacy and Therapeutics Committee meets periodically to review new drugs, and new information about drugs that are already on the market and in our List. Committee members review available information concerning safety, effectiveness, current use of therapy and scientific evidence, such as relevant findings of federal government agencies, pharmaceutical manufacturers, medical professional associations, national commissions and peer-reviewed journals. Once the P&T Committee completes its clinical review, cost information is considered to determine the inclusion or removal of a drug from the List.
