The Importance of the Annual Preventive Checkup

Why is it essential to visit the doctor every year?

A routine annual visit helps detect problems before these get complicated and keeps you up to date with your preventive tests.

It's always a good time to start taking better care of ourselves.

PREVENTIVE TESTS

They vary by age, medical history, and gender:

- Physical exam
- Blood pressure monitoring
- Weight and body mass index (BMI) evaluation
- Lab tests for cholesterol and glucose, among others
- Bone density
- Vaccines
- Depression screening
- Sexually transmitted infections tests
- Cancer tests:
 - Colorectal
 - Pap smear and mammogram for women
 - PSA (Prostate Specific Antigen) for men

Some of these tests are performed at the doctor's discretion. Preventives that are covered are those identified by the United States Preventive Services Task Force (USPSTF). Tests that are not identified by the USPSTF require copay. Please check your policy for more details.

The importance of having a Primary Care Physician (PCP)

The PCP's main role is to help you lead a healthy lifestyle and prevent diseases. This medical professional helps you manage your care, assess the urgency of your health problems, and guide you to the next steps you should take.

Primary Care Physician

- Knows your health conditions
- Assess your needs
- Prescribes your medications
- Prescribes diagnostic tests in advance
- Tells you which specialist you need to see

We all benefit from having a primary care physician

Primary care physicians:

- Generalists
- Family doctor
- Internist
- Pediatrician, if the patient is a minor

Coordination of Benefits

Important information if you have more than one health plan

Make sure to fill out the attached Service Coordination form.

* For detailed information about Coordination of Benefits refer to section 9 of your FEHB Brochure.

What is coordination of benefits?

- Avoid payments in excess when two or more health plan policies cover health care.
- This also applies to any reimbursement request you have made where you could recover the whole or the maximum possible cost of the care received.

How do I pay the deductibles and coinsurances?

Traditional Medicare

Triple-S Salud pays the deductibles and coinsurances applied by Medicare, subject to our payment policy.

Triple-S Salud with another Triple-S Salud plan or an external private plan

The payment of deductibles and coinsurances applied to the primary plan, will be assumed by the secondary plan when this payment does not exceeds the net payment amount that would have been made as if it were your primary plan. The payment policy applies.

Preserving benefits

Payment for the secondary takes as its basis the comparison of the net payment of your primary with the net payment of your secondary plan as if the latter is primary.

Who pays first?

See table on next page.

Coordination with Government Health Plan

The government health plan will always be secondary to any other insurance, without exceptions. The employer plan will always be the primary.
