## INTRODUCCIÓN / INTRODUCTION

Tu cubierta de farmacia usa una lista de medicinas con varias opciones de tratamiento.

*Your pharmacy coverage uses a Drug List that offers you various treatment options.*

Las medicinas en esta lista se escogieron por ser seguras y efectivas para tratar enfermedades, y por su costo. La lista tiene medicinas con leyenda aprobados por la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés) que están disponibles en el mercado y algunas medicinas sin leyenda federal (OTC, por sus siglas en inglés).

*The drugs in this List were chosen based on their safety, cost, and effectiveness to treat health problems. This list features prescription drugs that have been approved by the Food and Drug Administration (FDA) and are available in the market, as well as certain over-the-counter drugs (OTC) under the included categories.*

La Lista clasifica las medicinas por uso terapéutico. También, puedes ver una lista en orden alfabético de las medicinas disponibles. Aquí te brindamos información para facilitar tu lectura e interpretación.

*The List labels the drugs by therapy use. It also has a list of available drugs in alphabetical order. We have also included information to help you read and understand the List.*

Habla con tu doctor sobre las medicinas aquí listadas para tratar tu condición. Usar estas medicinas ayuda a reducir tus copagos y los costos del Beneficio de Farmacia.

*Talk with your doctor about the drugs listed here for your condition. Using these drugs help keep Pharmacy Benefit costs down, as well as your copayments.*

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

**La inclusión de un medicamento a la Lista no indica que el mismo está cubierto. El certificado del beneficio de Farmacia es el que determina si el medicamento está cubierto o excluido en la póliza.** Por ejemplo, los agentes para la disfunción eréctil, las hormonas de crecimiento y los medicamentos sin leyenda federal (OTC) usualmente están excluidos de la cubierta de farmacia.

***The inclusion of a drug in the List does not mean the drug is covered. The Pharmacy Benefit Certificate determines whether the drug will be covered or excluded by the plan. For example, drugs to treat erectile dysfunction, growth hormones, and over-the-counter drugs (OTC) are not normally covered by the drug plans.***

Si tienes preguntas o necesitas ayuda, llamar a nuestros Representantes de Servicio al Cliente al 787-774-6060, sin cargos al 1-800-981-3241. Para servicios telefónicos para audio impedidos (TTY/TDD), llama al 787-792-1370 o 1-866-215-1999. Nuestro Centro de Llamadas opera de lunes a viernes, de 7:30 AM a 8:00 PM, sábados de 9:00 AM a 6:00 PM y domingos de 11:00 AM a 5:00 PM - AST (tiempo estándar del Atlántico).

*To learn more, please call Customer Service at 787-774-6060 (TTY: 787-792-1370 or 1-866-215-1999) or free of charge 1-800-981-3241. Our Call Center is available Monday through Friday, 7:30 am to 8:00 pm, Saturdays, 9:00 am to 6:00 pm, and Sundays, 11:00 am to 5:00 pm - AST (Atlantic Standard Time).*

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

## **PARTE I - DISEÑO DE LA LISTA DE MEDICAMENTOS / PART I- DRUG LIST DESIGN**

### **¿Cómo usar esta lista de medicamentos? / How do I use the drug list?**

La forma más fácil para conseguir los medicamentos es buscando en el índice. El índice provee una lista por orden alfabético de todos los medicamentos que se presentan en este documento, tanto los de marca como los genéricos. Al lado del medicamento está el número de la página donde encontrarás cómo está cubierto. Busca la página indicada en el índice y encuentra el nombre del medicamento en las columnas.

*The easiest way to find the drugs is through the Index. The Index gives you an alphabetical list of all the drugs in this document, both brand name and generic drugs. Next to the drug, you will see the page number where you can find the coverage information. Turn to the page listed in the Index to find the name of the drug listed in the columns.*

### **¿Cuánto pagas por los medicamentos cubiertos? / How much will you pay for covered drugs?**

Los medicamentos se clasifican por niveles. Los niveles a continuación identifican los distintos niveles de costo compartido, o sea, lo que pagas por cada medicamento en la receta.

- Nivel 1 –medicamentos genéricos
- Nivel 2 – medicamentos de marca preferidos
- Nivel 3 – medicamentos de marca no preferidos
- Nivel 4 – productos especializados preferidos
- Nivel 5 – productos especializados no preferidos

*The Drug List is arranged by levels. These levels, listed below, point out the cost-sharing levels, which is what you pay for each prescribed drug.*

- *Level 1 – generic drugs*
- *Level 2 –preferred brand drugs*
- *Level 3 – non-preferred brand drugs*
- *Level 4 –preferred specialty products*
- *Level 5 – non-preferred specialty products*

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

## **¿Qué son medicamentos genéricos (Nivel 1)? / What are generic drugs (Level 1)?**

Un medicamento genérico tiene el mismo ingrediente activo en la fórmula que el de marca. Usualmente cuestan menos que los de marca y están aprobados por la Administración Federal de Drogas y Alimentos (FDA, por sus siglas en inglés).

*A generic drug has the same ingredient in identical amount as the brand name drug. They cost less than brand name drugs and are approved by the Food and Drug Administration (FDA).*

Este nivel incluye genéricos que han sido seleccionados por el Comité de Farmacia y Terapéutica luego de su evaluación de seguridad, eficacia y costo.

*This level includes generic drugs selected by the Pharmacy and Therapeutics Committee after evaluating their safety, efficiency, and cost.*

Éstos están escritos en letras minúsculas (ejemplo, nabumetone).

*Generic drugs are listed in lowercase (e.g., nabumetone) in the Drug List.*

## **¿Qué son medicamentos de marca preferidos (Nivel 2)? / What are preferred brand drugs (Level 2)?**

Este nivel incluye medicamentos de marca que han sido seleccionados por el Comité de Farmacia y Terapéutica como agentes preferidos luego de su evaluación de seguridad, eficacia y costo. Los mismos están identificados a la derecha como nivel 2. En aquellas clases terapéuticas donde no hay genéricos, te exhortamos a que uses como primera alternativa aquellos identificados como preferidos.

*This tier has brand name drugs that have been classified by the Pharmacy and Therapeutics Committee as preferred agents, after an in-depth review in terms of safety, efficiency, and cost. These are identified as level 3 next to the name of the drug. For therapeutic classes where there are no generic drugs, we suggest you use the preferred drugs as your first choice.*

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

### **¿Qué son medicamentos de marca no preferidos (Nivel 3)? / What are non-preferred brand drugs (Level 3)?**

Un medicamento es clasificado como marca no preferida porque existen alternativas en los niveles anteriores con menos efectos secundarios o son más costo-efectivos. Si el asegurado obtiene un medicamento de marca del nivel 3, tiene que pagar un costo mayor.

*A brand name drug is classified as non-preferred when there are other choices in other drug levels that have fewer side effects and/or are more cost effective. If you obtain a level 4 drug, you will have to pay more for that drug.*

### **¿Qué son productos especializados preferidos (Nivel 4)? / What are preferred specialty products (Level 4)?**

Los medicamentos especializados requieren una administración o manejo especial, por su composición compleja. Estos se usan para tratar condiciones crónicas y de alto riesgo que requieren un manejo especial de la condición.

*Specialty Drugs need special administration and/or management due to their complex composition. These are used to treat high-risk and chronic health conditions that need special management.*

El nivel 4 presenta los medicamentos o productos en la lista que se ofrecen bajo el Programa de Medicamentos para Condiciones Especiales. Dichos medicamentos o productos incluyen genéricos, biosimilares (genéricos de productos biológicos) y de marca a un costo menor que el nivel 5 y un arreglo especial para su despacho.

*Level 4 features the drugs or products in the Drug List that are offered under the Special Conditions Drugs Program. This tier has generic, biosimilar (generic biologics), and brand name drugs at a lower cost than those in level 5, and it grants special provisions for its supply.*

### **¿Qué son productos especializados no preferidos (Nivel 5)? / What are non-preferred specialty products (Level 5)?**

Los medicamentos en este nivel 5 también tienen un arreglo especial para su despacho, pero tienen un costo mayor que los del nivel 4. Éstos se usan para el tratamiento de condiciones crónicas y de alto riesgo que requieren una administración y manejo especial.

*The drugs in level 5 also require special handling for supply but have higher copay when compared to level 4 drugs. These are used to treat chronic and high-risk health conditions that need special handling and administration.*

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

## **Guías de Referencia / Reference Guidelines**

### **Medicamentos que requieren preautorización (PA) / Medications requiring prior authorization (PA)**

En un esfuerzo por garantizar la seguridad y el uso apropiado de los medicamentos, algunos necesitan una preautorización para ser adquiridos. Los mismos se han identificado a la derecha con **PA (requiere preautorización)**, en cuyo caso, la farmacia gestiona la preautorización previo al despacho del medicamento.

*To guarantee the safe and effective use of drugs, there are certain drugs that need a prior authorization (PA) before dispensing it. A PA is placed next to the name of the drug to identify them, and the pharmacy will process the prior authorization before dispensing it.*

Los medicamentos que requieren preautorización usualmente son candidatos al uso inapropiado o están relacionados con un costo elevado por lo que requieren que el asegurado cumpla con unos criterios antes de ser despachados. Aquellos medicamentos que han sido identificados que requieren preautorización deben satisfacer los criterios clínicos establecidos según lo haya determinado el Comité de Farmacia y Terapéutica. Estos criterios clínicos se han desarrollado de acuerdo a la literatura médica actual.

*The drugs that need prior authorization are those for which you need to meet certain criteria before using them, are likely to be used inadequately, or have a higher cost. Drugs identified as needing prior authorization should fulfill the clinical criteria, as determined by the Pharmacy and Therapeutics Committee. The criteria have been developed as stated by current medical literature.*

También, tienen requisito de PA aquellos medicamentos de alto costo (verifica tu certificado de beneficio). La farmacia enviará copia de la receta y se encargarán del proceso.

*High Cost Drugs will require a prior authorization (check your health plan benefits). The pharmacy will send a copy of the prescription to the health plan and will take care of the process.*

### **Programa de Terapia Escalonada (ST) / Step Therapy Program (ST)**

En algunos casos, requerimos que utilices primero un medicamento como terapia para tu condición antes de que cubramos otro para esa condición (Terapia Escalonada, *ST* por sus siglas en inglés). Por ejemplo, si el Medicamento A y el Medicamento B se usan ambos para tratar tu condición médica, nosotros requerimos que utilices primero el Medicamento A. Si el

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

Medicamento A no te funciona, entonces cubrimos el Medicamento B.

*In some cases, you need to try one drug first to treat your health condition before we cover other drugs for the same condition (Step Therapy). For example, if Drug A and Drug B both treat your health condition, you may need to use Drug A first. If Drug A does not work for you, then we will cover Drug B.*

### **Límites de cantidad (QL) / Limits on the amount to be dispensed (QL)**

Ciertos medicamentos tienen un límite en la cantidad a despacharse. Estas cantidades se establecen de acuerdo a lo sugerido por el fabricante como la cantidad máxima adecuada que no está asociada a efectos adversos y la cual es efectiva para el tratamiento de una condición. En el área de Requisitos de la lista de medicamentos se identificaron los límites en la cantidad a despacharse, en aquellos que aplique.

*Certain drugs have a limit on the amount to be dispensed. These amounts are established according to the manufacturer's recommendation for adequate amounts to avoid adverse effects and effectively treat a health condition. The Requirements column in the Drug List points out the quantity limits for applicable drugs.*

### **Límites de especialidad médica (SL) / Medical specialty limits (SL)**

Algunos medicamentos tienen un límite en la especialidad médica. Estos límites de especialidad se establecen de acuerdo a la literatura médica actual.

*Some drugs have medical specialty limits. These limits are established in line with current medical literature.*

### **Límites de edad (AL) / Age limits (AL)**

Algunos medicamentos tienen un límite de edad.

*Some drugs have an age limit.*

### **Éditos de análisis de utilización (DUR) / Edits for Drug Utilization Review (DUR)**

A través del Programa de Beneficio de Farmacia de Triple-S Salud, Inc. se han implantado los siguientes éditos de análisis de utilización (*DUR*, por sus siglas en inglés) con el propósito de evitar complicaciones a los asegurados, ofreciendo un mejor cuidado.

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

Through the Pharmacy Benefit Management Program, Triple-S Salud has implemented the following drug utilization review (DUR) edits to avoid other health problems while offering you a better care.

- Édito de Validación de Dosis - coteja las dosis máximas diarias para la población pediátrica, adulta y geriátrica. / *Dose check edits - Verify daily maximum doses for pediatric, adult and geriatric population.*
- Édito de Terapia Duplicada -verifica tu historial de medicamentos para recetas duplicadas, de dos formas: / *Duplicate Therapy edits- Verify your drug history for duplicate prescriptions in two ways:*
  1. Si recibes el mismo medicamento (Ej. mismo ingrediente activo) con dos recetas distintas (Ej. número de receta distinto, puede ser la misma farmacia o farmacias diferentes). / *If you get the same drug (e.g. same active ingredient) with two different prescriptions (e.g. prescription number is different; could be through the same pharmacy or different ones).*
  2. Si recibes dos medicamentos de la misma clase terapéutica, por ejemplo, dos antidepresivos o dos analgésicos, entre otros. / *If you get two drugs of the same therapeutic category, such as: two antidepressants or two analgesics.*

Hay ciertas excepciones a estos éditos. Se solicita a los médicos que incluyan la siguiente información en la receta: / There are exceptions to these edits. We suggest that your doctor includes in the prescription:

- Cambio en dosis / Change in dose

Si aumentó la dosis y necesitas más medicamentos antes de tiempo, en este caso se necesita una carta de justificación de parte del médico indicando el cambio en dosis. La farmacia requerirá una preautorización a Triple-S Salud, luego de que se reciba la información necesaria en la receta. / *If the dose is increased and you need your drug right away, a letter from your doctor justifying the dose change will be needed. The pharmacy will need a prior authorization after the necessary information is received.*

1. Si la dosis se determina por tu peso, el médico debe indicar tu peso y estatura en la receta. / *If the dose is determined by weight, the doctor must write your weight and height in the prescription.*
2. Cuando la dosis se ajuste de acuerdo a los niveles en tu sangre, el médico debe

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

indicarlo así en la receta (Ej. ajuste de niveles para tiroides, teofilina, anticonvulsivos, warfarina). / *When the dose of the drug is changed as a result to your blood levels, the doctor must write it in the prescription (e.g.: changes for thyroid, theophylline, anti-convulsiveness, and warfarin).*

3. Cuando para la dosis indicada en la receta no existe su presentación farmacéutica. Por ejemplo, la tableta viene de 25 mg y 50 mg, pero necesitas 75 mg (dosis indicada y aceptada). La farmacia requerirá una preautorización a *Triple-S Salud, Inc.* / *When the dose written in the prescription does not exist in the pharmaceutical dosage form of the drug. For example, the tablet exists in 25 mg and 50 mg, but you need a 75 mg dose (dose needed and accepted)*

PA = Prior Authorization [Pre Autorización]; QL = Quantity Limit [Límite de Cantidad]; ST = Step Therapy [Terapia Escalonada]; AL = Age Limit [Límite de Edad]; SL = Specialty Limit [Límite de Especialidad]

**Leyenda para Símbolos y Abreviaturas de Requisitos/Límites / Legend for Symbols and Abbreviations for Requirements/Limits**

| <b>Símbolo / Abreviatura (Symbol / Abbreviation)</b> | <b>Descripción</b>   | <b>Description</b>   |
|--|--|--|
